#### YELLOW JACK AGAIN.

The Disease This Appeared at  
Key West, Fla.

WASHINGTON, Sept. 1.—Surgeon General Sternberg has received a telegram from Key West, Fla., containing the report of the outbreak of yellow fever there.

#### TODAY'S WIRE SPARKS.

AMSTERDAM—Word received here says a steamer sunk in the North Sea and nine persons were drowned.

SHANGHAI—The Chinese are making continual attacks on the Germans in Kiao Chan Hinterland. The German embassy has sent an ultimatum to the Chinese government demanding order be restored.

PARIS—The Petit Journal deplores the internal disorganization caused by the Dreyfus case which, it says, are clouds the possibility of France avenging Tashoda next night, in the event of war between England and Boers.

PHILADELPHIA, Sept. 1.—There is probability of a general strike of street car men here Monday morning, which will tie up the cars during the G. A. R. encampment which begins then. Trouble has been brewing among the men for a week. They say they will demand two dollars for ten hours a day.

BRIDGEPORT, Conn., Sept. 1.—At Black Rock this morning four children were drowned and the father of one of them perished while heroically striving to save his little ones. Dead: Florence Hitt, Ethel Hitt, Tommy Towler, Elijah Middlebrook and Mai Middlebrook.

PARIS, Sept. 1.—The Matin publishes the official details of the atrocities committed by the Violet expedition in French Sudan. Captain Voulet and Chanoine had been declared outlaws for murdering Lieutenant Klobb and Captain Meyer, who were sent to relieve them. The Matin says the expedition was ordered to kill every native encountered. All native villages through which the Frenchmen passed were burned.

Next year's estimates for the navy will be submitted to Secretary Long today. They show considerable increase. The largest item is \$18,000,000 for "increase of the navy," which is \$5,000,000 more than any previous estimate under this head.

Three hundred miners employed by the Keeler Coal company at Brant, Ind., went on a strike yesterday because they were forced to buy powder at the company's store at a higher rate than was charged elsewhere.

There are 61 counties in Kansas where not one bicycle is in use.

Hebrews. Of these 144 are off color. Silk when first known to the Jews was sold for its weight in gold.

#### UNIMPORTANT

What Major Hartman Says of  
Information in Boredeau.

Facts Contained Therein Known  
in Germany Four Years Before  
Dreyfus' Alleged Sale.

RENNES, France, Sept. 1.—A number of minor witnesses were heard during today's session of the Dreyfus court-martial. They testified for and against the accused. By order of President Joussier numerous letters were read before the court testifying to the good character of M. Du Breuil, who testified a week ago that Dreyfus had treasonable relations with a German officer at the house of a woman named Bodson. Du Breuil then reiterated his testimony regarding Dreyfus' relations with Madame Bodson and said it could be ratified by their former valet de chambre. Dreyfus arose and indignantly denied ever meeting any foreigner at Bodson's. A hostler named Georges then testified having seen Dreyfus at Mulhouse in 1886 attending the German maneuvers and was horseback in company with a German named Kullman. Captain Kullman was next called. He denied having ridden with Dreyfus to see the German maneuvers. Major Lennouier, who was in the second bureau with Dreyfus, testified they all knew the accused was not going to the maneuvers in 1894, therefore it was impossible he would have written the last line of the Boredeau, "I am just leaving for maneuvers."

A few more unimportant witnesses were heard after which Major Hartman took the stand and testified the documents cited in the Boredeau were without value and offered to prove Germany knew about Dreyfus in 1890. The witness' testimony was not finished when court adjourned for the day.

#### FATAL EXPLOSION.

Six Men Killed and Others Injured and Property Wrecked

PITTSBURGH, Sept. 1.—Six men are known to have been killed and over a dozen injured by a terrific explosion at the Republic Iron Works this morning. The building was almost totally wrecked. Several ladies have thus far been found. The dead are: William Thomas, killed by falling debris; Thomas Bryant, Jas. Fellingham, Edward Matthews, unidentified laborer; John Morzeny. Several are injured and cannot recover.

#### LOOKS WARLIKE.

If Oom Paul Has Sent Reported  
Refusal Trouble Must Follow

LONDON, Sept. 1.—A dispatch to the Central News from Pretoria says Kruger's reply to Chamberlain's latest note, suggesting another conference at Cape Town, is a refusal. Such a refusal, if facts are as stated, would mean war.

#### KILLED FIVE HUNDRED.

LONDON, Sept. 1.—Advices from the Congo Free State say the government troops routed a rebellious tribe, killing 500.

Within the past year a great volunteer army has been mustered out, and so has the larger half of the regular army as organized for the war. Nearly 40,000 regulars have been recruited again since the close of hostilities with Spain.

#### DELICIOUS TOMATO SAUCE.

Twelve large ripe tomatoes chopped and strained through a colander; one large sweet pepper, chopped; three onions, chopped; one tablespoonful black pepper, one tablespoonful salt, and one-half cup vinegar. Boil for one hour. Add to taste; stir all together and put in jars. Will keep a year. Do not cork.

#### FOR MUTINY.

Three Roustabouts Have a Hard Time  
With the Captain.

Tim Scott, John O'Neal and Joe Woods, colored roustabouts, came down the river last night on the "Red Rover," a new boat just out of the Jeffersonville docks, en route to Red River. When they reached the city, they asked for their money, saying they were ill and could go no further. It appears that the clerk did not desire to give them money unless they found someone else to take their place. The boat had the roustabouts objected, declaring that they shipped to go no farther than Paducah, and did not know anyone here.

At Caseyville the boat was on the bar about three days, and this delayed them and made many of the men ill. The clerk of the boat, however, informed Officers Gouroux and Herling last night that the three men refused to work themselves, and had persuaded others not to work. Two gangs had refused to work, he declared, and they had to go to Smith and Washington to get men.

The clerk was not present when the men were arraigned before Judge Sanders this morning, however, and there was no evidence against them. The boat has gone Alexandria, La., and with it went the clerk, the only man who could testify against the men. Judge Sanders didn't think the men were guilty anyway, as one of them, "Brook," who has been a roustabout for eighteen years, had called on the judge himself for advice.

#### RUSH IN COAL.

People Are Getting It In Rapidly  
In Other Places.

Coal dealers report the greatest rush in the coal business known in years. This is probably the result of last year's coal famine, and in Chicago the coal men cannot supply the demand.

The railroad companies have all they can do to furnish coal cars, and many times find it impossible to haul the coal ready for shipment. If people in Paducah would begin laying in their coal, they would experience nothing similar to what they had to go through with last winter, and it would be no inconvenience to them, as coal is something that will keep if the coal house is securely locked.

#### ST. MARY'S ACADEMY.

Owing to the intensely warm weather now prevailing, class will not be resumed at St. Mary's Academy until Monday, Sept. 11. Instead of Monday, Sept. 4, as had been previously intended. For further particulars in regard to terms, etc., call at the academy, corner Fifth and Monroe streets.

#### THE LATEST.

There is a serious conflict of authority between the state and federal court authorities at Americus, Ga. Soldiers are patrolling the streets of the city of Darien, Ga., and preventing disorder during the trial of the rioters.

Sandy Fenwick, proprietor of the Duncan hotel at Henderson, was shot and perhaps fatally injured by J. S. Birrell, a quackswore agent.

American interests in the Rand are making efforts to induce the Great Britain in demanding justice for the planters in the Transvaal. Another insurrection has broken out in the island of Formosa.

Robbers burned a house at Arlington, Texas. One life was lost.

China has shown such a spirit of opposition in the negotiations between Italy and herself that the Italian squadron in Chinese waters will be reinforced by two torpedo boat destroyers.

Quality, not quantity. Seiden's cigarettes. M. Livingston & Co., sole agents.

#### THE Y. M. C. A.

An Interesting Meeting Was  
Held Last Night.

The Association in a Flourishing  
Condition—Plans for  
Work

The directors of the local bond Y. M. C. A. met last night and State Secretary Rosevear was a visitor. The report of the year's work was most favorable, and showed a great improvement. Secretary Rosevear greatly complimented the association on its excellent record.

Arrangements were made for the anniversary on the First Sunday in October, and another meeting will be held on the 12th inst., to complete arrangements for this and for carrying on the year's work. General Secretary Knox has proven a faithful as well as popular secretary, and is very popular with everybody. He makes about the best secretary the association ever had.

The gymnasium work will begin in a short time, and a young man of their will be in charge of the class. Prof. H. Clay Smith was last night elected a director of the association to fill a vacancy occasioned by a resignation.

At the anniversary some of the most prominent speakers in this state and other states will be here to address the members, and it is hoped to make the occasion one of the most interesting in the history of the order.

#### REV. PRYOR DEAD.

Minister of the County Submits  
to Typhoid Fever.

Rev. R. M. Pryor, pastor of New Hope church, of the county, died last night at his home near Glasgow from typhoid fever, aged 47. The deceased was formerly of New Liberty, Ill., but came to this county some time ago and became very popular. He leaves a wife and several children. The funeral takes place this afternoon.

#### MAY MOVE AWAY.

The Victoria or Dogwood Mills have shut down permanently so far as Paducah is concerned. The factory has been manufacturing the spindles for an English concern for the past several years. Mr. J. H. Mann being the manager, but the supply of timber in this section is exhausted, necessitating a removal to a more profitable section.

The factory employed 25 or 30 men, and did considerable business.

#### LIVING PICTURES AT PARK

Tonight the stock company will give a double bill comprising the high class comedy in one act, "A Husband in Clover," and the comic act farce, "Rich's Romance." Between the bills the company will give a choice selection of living pictures. This makes a very charming performance for a night's entertainment. There will also be a dance in the pavilion.

#### SMALL BLAZE THIS MORNING

Fire was discovered this morning in the brick house back of the city hall, on Fourth street, occupied by Donie Norman, and belonging to the Robious. The blaze originated near the fire, and did no damage of consequence.

While a boy named Whitaker, aged 12 years, was riding in an empty bank car, at the Oakhill mine near Nortonville, the car jumped the track and the lad was thrown on the track and run over by the cars, and finally injured.

An attempt was made to burn the town of Albany, in Clinton county. A suspected young man was driven out of the place.

#### THEY FOUGHT LIVELY.

Two Men Get Into It at Second  
and Court Streets.

A man named Coon Coley has a horse, and with that "horse" as Marshal Collins calls it, always goes the first misfortune. The other day an old lady traded a good mule for it, and after driving about a block discovered that the animal was short-winded, and could go no farther after a block was traversed.

The police had to chase Coley all over town and get the mule back. The horse has since been traded to others, and usually the first time the traders meet afterwards, they hit. There was nothing else to do.

It appears that Kiri Broyles was the last man to get the animal. He bought John Boswell, one of the Gypsies who made the trade, with getting him swindled, and while the two were in Marshal Collins' office at Second and Court streets they suddenly began fighting.

Mr. Tom Boswell separated them, and were warranted for a breach of the peace. Their trial will be tomorrow morning.

#### INFIRMARY CLOSES.

Drs. Reddick and Rivers Close  
Their Institution.

Drs. Reddick and Rivers have closed their infirmary at Sixth and Broadway, on account of the dull times. Their offices, however, will remain in the building, and the other rooms will be rented out to whomsoever desires them. It had been reported for some time that the infirmary was not paying and would be abandoned. For some reason an infirmary has always been a losing investment in Paducah.

#### SEWERAGE WORK.

Good Force at Work Today—Third  
Street Nearly Finished.

There are about seventeen diggers at work on the sewerage today. The south end of Third street has been completed, and the work is being rapidly pushed.

Superintendent Erler expects to have a still larger force of men at work during the next few weeks that the sewerage will be in course of construction.

#### HURT BY GAS PIPE.

Isaac Cartwright, a colored employee of Mr. Ed Hannon, the plumber, had his right leg painfully mashed this afternoon at the shop on South Fourth street by a quantity of gas pipe falling across his legs. He cries for help could be heard for quite a distance.

#### SPEAKING TONIGHT.

Messrs. Hallam and Sweeney, advocates of the Brown ticket, speak tonight at Yeller park. All are invited to hear them. They are gentlemen of ability and with a state reputation.

#### BOYS MUST BE GOOD.

Mayor Long has received complaint about boys going in the river in daylight at the dry docks at the foot of Jefferson street. He has ordered his officers to keep a strict lookout and arrest all offenders.

#### WOODMEN CIRCLE.

All members of the Woodmen Circle are requested to be present at meeting tonight. Important business.

### OUR STATE TICKET.

GOVERNOR,

W. S. TAYLOR,

Of Butler County.

LIEUTENANT GOVERNOR,

JOHN MARSHALL,

Of Jefferson County.

SECRETARY OF STATE,

CALEB POWERS,

Of Knox County.

ATTORNEY GENERAL,

CLINTON J. PRATT,

Of Hopkins County.

JUDGE,

JOHN S. SWEENEY,

Of Bourbon County.

THESAUER,

WALTER R. DAVIS,

Of Breathitt County.

COMMISSIONER OF AGRICULTURE,

J. W. THROCKMORTON,

Of Fayette County.

SUPERINTENDENT OF PUBLIC INSTRUCTION,

JOHN BURKE,

Of Campbell County.

FRIDAY, SEPT. 1, 1899.

It is really true that Mr. Goebel

goes about the state armed with a

dag. Maybe it is only a "knife"

to use on Mr. Bryan and is not a dag-

ger.

It is rumored that W. J. Stone, of

Missouri, is a candidate for a place

on the Democratic presidential tick-

et. Is this why he is coming to Ken-

tucky? Does he also hope to "knife"

Bryan?

Mr. Blackburn has gone east on

business and for ten days

will be out of the state canvass. Has

the ex-cassier followed Judge Goebel

to the mountains of Ohio?

Ten days will tell the fact.

It is a safe bet that Ohio will go

Republican by a bigger majority this

year than for several years past. The

McLean popular combination will

be repudiated by the thoughtful

people of the state by a more decisive

vote. This is already settled.

The Louisville Post says: "There

is a striking similarity between the

anti-Dreyfus crusade in France and

the Goebel crusade in Kentucky."

What a frightful comparison to Goebel!

The whole Christian world can

but shudder to think what Ken-

tucky is threatened with.

Mr. Goebel owns a bank and has

in a brewery—two facts in no wise

credible to him—yet he poses as

an honest man. Goebel is a demagogue

or he is nothing. No man can at heart

be honest in any principle and yet

fooster the contrary by acts just be-

cause the law is with him.

Mr. Wheeler's assault on the honesty

of the teachers and school superintend-

ents of the state, as made in his speech

at Edinburg, is growing the rounds

it will soon be followed by the assaults

of Goebel at Bowling Green on several

of the state's best men. The reckon-

ing day will be in November, but these

assaults went then be wiped out.

They will only be filed away for fu-

ture days.

Mr. Ollie James, of Marion, lately

delivered a speech at Owensboro. He

is said to have made the point that when

Brown threatened that he would accept

the nomination of the Louisville con-

vention on a clean vote that this

was after the platform had been adopt-

ed and that therefore Brown was wil-

ling to take the nomination and support

the Goebel election bill. This idea

is said to have aroused great cheers

and is such a good point, think the

Goebellies, that James is given much

credit therefor. Mr. James should use

a sharper pencil and make another

point: It would be about as good as

the one for which he claims such dis-

tinction.

JUDGE PRATT'S ARGUMENT.

Louisville Commercial: The nomina-

tion of the Hon. Clinton J. Pratt for

the office of attorney general was one

of the strongest and wisest acts of the

Republican state convention. This

was well appreciated at the time, but

the character of the campaign which

Judge Pratt is making before the peo-

ple enforces the correctness of this

estimate of his candor in a way not

less than remarkable. Two things have

already been made clear: There is no

better material in the state for the at-

torney generalship, and there is no

arrogant man on the stump anywhere

in Kentucky or in any other state

than Judge Pratt.

This judge's speech at Wilkiffe Tues-

day was a demonstration of the truth

of what has just been said. It was

such an analysis of prevailing civic

and political conditions in Kentucky

as made them clear to every citizen

within the range of Judge Pratt's

voice, and it was such a plea to his

fellow citizens to organize and to fight

for the preservation of their rights as

could have been made only by a speaker

with perfect knowledge of the situation

and of unbounded devotion to the

cause of government by the people.

Judge Pratt stated the whole case

now before the electorate, and stated

it fairly to every impartial element

having a part in the pending campaign.

He was fair to Mr. Goebel, but he

demanded the passing of popular gov-

ernment in Kentucky with Mr. Goebel's

election as governor. He was fair to  
Mr. Goebel, but he made it clear  
that he only certainty of saving the  
right of suffrage in this state, that  
the unfailing way to overthrow Goebel  
was in the direct vote by men of  
all parties for Gen. Taylor and the Re-  
publican state ticket and for the Re-  
publican nominees for the legislature.  
Judge Pratt's eloquent presenta-  
tion of the issues before the people of  
Kentucky is of judicial temper through-  
out and must powerfully influence  
thinking voters in every community  
where he speaks or where printed copies  
of his speech may be circulated and  
read. It is a chief factor in the cam-  
paign for the preservation of the civil  
liberties of the people of this state.

### EDITORIAL NOTES.

The more speeches Mr. Blackburn  
makes in this campaign the larger will  
be Gen. Taylor's majority.

The docket of the court of appeals  
is now with the printer. There are 383  
appeals and 29 continued cases.

The United States cruiser Olympia,  
with Admiral Dewey on board, sailed  
from Villfranche for Gibraltar yes-  
terday.

Goebel has made one discovery about  
his cheating election law. Before com-  
ing into use it divided the party respon-  
sible for its passage.

When the Democrats in Congress at  
the coming session try to get together  
to oppose expansion they will realize  
their absurd diversity of views on this  
subject.

Jasper county, Mo., is producing zinc  
and lead at the rate of \$5,000,000 a  
year.

In the Ohio Democratic convention a  
prayer denouncing the exhibition of  
American "brute force" in the Philip-  
pines was "vociferously applauded."

Mr. McLean, the Democratic candidate  
for governor of Ohio, is a shrewd and  
unscrupulous politician with a heart.  
He has lived outside the state for  
many years.

The coming census of Cuba will have  
great interest for the world.

Gov. W. J. Stone has notified the  
Goebel campaign committee that he  
would come to Kentucky to speak,  
starting a week here, from September  
12 to 17. He will speak at Richmond,  
Mr. Sterling, Hardestown and Letch-  
field.

Of the 6,000,000 Philippine popula-  
tion, Aguinaldo's disturbers represent  
not exceeding 30,000.

The inhabitants of Acre, a portion  
of South America, which is claimed  
by Bolivia and Brazil, have struck out  
for themselves, declared their independ-  
ence, and formed a commonwealth.

Mr. Hobart, if renominated for vice  
president, will be the first to be hon-  
ored with the distinction in a great many  
years. He-elect he will be the first  
vice president to serve two terms since  
John C. Calhoun.

Comrades Gen. Taylor and Mr. Mar-  
shall's running mate, in the moun-  
tains, are doing fine work and are  
paving the way for the largest Repub-  
lican majority known.

### HIS BEARSHIP GONE.

Mrs. Malone Painfully Injured by  
a Vicious Bear at the Park.

The bear that had been in La Belle  
park for the past year has changed his  
habitation. He had occupied a space  
allotted him by the park keepers near  
the house on top of the hill. He was  
chained to a post, but in time the  
visitors, especially the small boys,  
made him so vicious that it became  
dangerous to venture within reach of  
his claws. Many a dress has been  
torn and many a person frightened  
half to death this summer by unex-  
pected attacks of the bear.

Yesterday afternoon late Mrs. Ma-  
lone, mother of one of the managers  
of La Belle park theater, while feeding  
her bear was seized and one of her  
limbs was bitten in a terrible manner.  
She screamed for help, and her son ran  
to her assistance and drove the bear off  
with a club.

Mrs. Malone was attempting to  
take a basket from the bear when it  
attacked her. The wound inflicted is  
painful, but not serious. Mrs. Ma-  
lone was brought to the city, and Dr.  
Reddick dressed the injury. Mr.  
Robertson, to whom the bear belongs,  
has taken it home. He captured it in  
Arkansas.

### NEW LIGHTS.

It Will Be Over a Month Before  
They Are Burning.

Superintendent Harry Wallace, of  
the city electric light plant, thinks  
that it will be at least until the mid-  
dle of October before the twenty new  
lights recently ordered by the city,  
are up and shining. There has been  
considerable delay, but the time is  
fast approaching when the people will  
have a chance to appreciate the  
lights, notwithstanding the delay.

The recently discovered lead mines  
in Owen county were sold to a Cin-

### RACY ADMISSION

Editor McDonald Throws His  
Party Very Hard.

Hoping to Make a Point He Tells  
Startling Facts of Dem-  
ocratic Victory.

Lexington Leader: From the pen of  
Pat McDonald, the man who is in  
charge of the compilation of the Goebel  
Democratic campaign hand-  
book, comes an admission that is as  
damaging as anything that will be  
elected from anyone that favors Wm.  
Goebel for governor. McDonald is  
putting his little gem of campaign thun-  
der into the Democratic handbook.  
It is too refreshing to be buried in the  
columns of his paper, the West-  
ern Argus, of Frankfort, of the date  
of August 24.

He says that the present city offi-  
cials of Frankfort are Democrats,  
that five lives were lost in carrying  
this election and that it was carried  
by fraud, and that this fraud was all  
committed under the old election law.  
If this is the situation under the old  
election law, under which the Republi-  
cans had some measure of repre-  
sentation, what is the threat of vio-  
lence and corruption under an elec-  
tion law, such as the Goebel election  
law, which is perfectly partisan?

Frankfort bears the palm for rotten  
local politics in Kentucky, and Mc-  
Donald's statement is but a frank ad-  
mission of the justice of the reputa-  
tion. The present office holders  
there, elected by fraud and blood-  
shed, so McDonald says, are against  
Goebel now, a fact that brings forth  
the editorial: Having passed through  
one election day of terror, it is rea-  
sonable to believe that they want  
to at least avoid another worse under  
the Goebel election law, and repudi-  
ate it as too dangerous.

Her is what McDonald says in his  
editorial: This city has been run by  
the old election law for years, and is  
about run to destruction. Take a  
survey of the situation today. The  
present officials were elected as  
Democrats. The holders of the best  
offices are booters and are fighting  
the party. These gentlemen cry out  
fraud at Louisville, when every one  
knows that the offices they hold  
were secured through an election  
where legal voters were prevented  
from casting their suffrage. They  
have lost their lives in carrying this  
election. Yet not one resignation or  
refusal has come from them. They  
have drawn their pay with usual  
regularity, and they want to be con-  
tinued in office. Some of them will  
say: "I will support the Democratic  
ticket, but it is fraudulent." This  
fraud was all committed under the  
old election law.

The stock cry of those supporting  
the Goebel election law has been that  
under the old law the Republi-  
cans have committed frauds and con-  
victed themselves. In the above ex-  
pression McDonald is evidently angry  
that Democrats whom he does not  
like were beneficiaries under the  
old law.

Under the Goebel election law,  
everything should be a clean sweep  
for the Goebellies, the McDonalds  
and the others who are in the elec-  
tion syndicate and not even Demo-  
crats who are not on the inside will  
be permitted to win an election. Un-  
der the old election law, it appears,  
to McDonald, Democratic offices could  
not be centralized enough, there-  
fore the Goebel election law is what  
is needed. Honest Pat McDonald.  
Put it in the handbook.

## AGAINST BRYAN

**Political Prophets See a Plot to  
Defeat the Nebraskan.**

**Scheme to Capture Ohio and Ken-  
tucky Delegations for  
McLean.**

LOUISVILLE, Ky., Sept. 1.—The  
nomination of John R. McLean for  
governor by the Democratic state  
convention of Ohio is a matter that  
concerns the Democrats of the whole  
country, for it is said to be a step in  
the prearranged campaign of certain  
Democratic leaders against the re-  
nomination of W. J. Bryan in 1900.  
It is the confident belief of astute  
politicians at Cincinnati that while  
Goebel and McLean are both profes-  
sionally followers of Mr. Bryan, they  
are a part of a movement which in-  
cludes Croker and Tammany Hall,  
Gorman and his Maryland machine  
and Harrison and the Chicago ring.  
It will be found, say these political  
prophets, that the delegations from  
New York, Maryland, Ohio, Illinois  
and Kentucky will be for John R. Mc-  
Lean for president in 1900. Not only  
will they carry credentials as  
Bryan men, but they will enable  
them all the more effectively to  
execute their treacherous purposes.  
Mr. McLean, who three years ago  
"would not consent" to receive the  
nomination of the National Democratic  
convention for vice president, has,  
in the face of Mr. Bryan's objection,  
for months been conducting a cam-  
paign in Ohio for the purpose of se-  
curing what is usually considered a  
"damned barren idealism," the  
Democratic nomination for governor  
in that state.

Mr. Bryan, it is understood, will  
be dragged into Kentucky, and forced  
also to appear for McLean in Ohio.  
There will be no division of the party  
in Ohio, and there will be no objection  
from the Democrats of that state  
to the coming of Mr. Bryan, but the  
election of Goebel and McLean will in-  
sure beyond a doubt the defeat of  
Mr. Bryan in his efforts to secure the  
nomination of the Democratic Na-  
tional convention next year, for it  
will insure for Mr. McLean the com-  
bined vote of Ohio and Kentucky in  
the convention.

**Observations  
....at Random.**

The twilight shadows chased each  
other athwart the dusky beams of the  
waning evening. The electric light  
flickered and threatened to go out,  
but went only far enough to make  
you wish it had. The faint light  
waited the wet, damp wind lured to  
the faces of pedestrians, and it seemed  
as if old Sol had left plenty of his stray  
beams when he departed.

There was a loud cry at Broadway  
and Third as the rugged crowd rushed  
forward and picked up a prostrate  
form. There was a mangled limb.  
The street roller had turned over. "A  
doctor, a doctor!" shouted someone  
exhilarated.

"There's one up here!" replied some-  
body else as he rushed towards a  
dial on the edge of the sidewalk.  
"Doctor, doctor!" he shouted. "Hur-  
ry up and come. Man hurt! I never  
knew you to be late before!"

But there was never a sound emit-  
ted by the bulky form and the well-  
known profile of the doctor. He ap-  
peared transfixed to the spot. The  
man touched him and then peered up  
into his face. He then saw that it was  
only the wooden effigy in front of Ellis  
Rudy & Phillips'.

Those who imagine that the work of  
putting in the sewerage will be over  
with the last ditch dug will find  
that they are greatly mistaken. The  
most tedious work is yet to come.

Every piece of property in the sewer-  
age district has to be platted and  
dimensions given. This requires  
much time and calculation. Then each  
street and alley has to be platted and  
the dimensions given. The owner and  
the area of each lot must be given;  
the area of each block, and the total  
number of superficial feet in the sewer-  
age district including the intersec-  
tions of streets and alleys.

The lots that have to be given in  
area and platted are of every known  
geometrical figure except that of a  
cube of conical section, and range in  
dimensions from 7 feet 3.4 inches to  
344 1-2 feet, and in depth from ten  
feet to any old distance. Much trou-  
ble is caused by partnership walls.  
About one person in twenty knows the  
dimensions of his property; the other  
nineteen don't seem to give a d—d, as  
one of the sewer men expressed it, so  
in order to make the necessary com-  
plications, the city engineer or his as-  
sistants must hire himself to the court  
house and wade through the records.  
Anyone who has tried to wade through  
this court house records knows what  
this means.

Then every foot of 24 inch, 15 inch,  
12 inch, 10 inch, 8 inch, and 6 inch  
sewerage has to be tabulated and the  
cost of each separate size calculated.  
Each man-hole, each flush tank, and  
all extra work, the cost of end pipe,  
ocks and so forth for each flush tank,  
together with each and every expense  
incurred in any way by reason of sewer  
construction. All the above work has  
to be done by or under the direction  
of the city engineer. It is a task that  
is one not to be proud of until it is  
completed.

City Engineer Wilcox's office is  
fairly littered with papers some times  
and one not initiated to the secrets of  
things in general would be totally

## BADLY INJURED.

**Prominent Carlisle County Far-  
mer Gored by a Vicious Bull.**

MAYFIELD, Ky., Sept. 1.—Accord-  
ing to a report received here yester-  
day, a well known farmer of Carlisle  
county came near losing his life by  
being gored by a vicious bull. As  
it was, the farmer was seriously in-  
jured.

Mr. C. R. Pile, an old and well known  
citizen of Carlisle county, living at or  
near Arlington, is reported to have been  
gored by a bull yesterday. It is said  
a negro man who was near had stuck  
a pitchfork into the enraged animal  
before Mr. Pile could be rescued from  
his attacks.

The injured man is the father of Mrs.  
R. P. Wright, of this city, who is now  
at Great Springs, Ill.

## WOMANLY

**A sweet woman, the picture of health,  
speaking with enthusiasm, said, "I don't  
see why you do not send out women  
to talk to women about the merits of  
Pabst Malt Extract, The  
"Best" Tonic. There  
are so many women that  
are run down, with nerves  
shattered, with a lack of  
vitality, feeling a sort  
of restless indecision  
which is an outgrowth  
of over-exertion. If you could only  
get a woman who knows as well as I  
do how "Best" Tonic will build one  
up, and who has enough earnestness to  
tell them about it, you would certainly  
have largely increased sales. There is  
Mrs. —, who was as thin as she could  
be, and her poor little baby, puny and  
undeveloped. I told her about "Best"  
Tonic. In three weeks you ought to  
see the difference. The improvement  
is something great; mother and baby  
both feel it and show it."**

### FIRE STATION IMPROVEMENTS

The Sewerage Attachments Will Be Made.

Sewerage Inspector George A. Gardner has completed the plans for the closets, bath tubs and other sewerage attachments for fire station No. 1. The work will be about \$150, three times greater than at first estimated, but the improvement will be well worth it, and will be made nevertheless.

In addition, the city will shortly connect the electric light plant with the sewerage public buildings, with the sewerage.

### STREET FAIR.

There was a good crowd of representative business men at the meeting held last night at the city hall for the purpose of arranging for a street fair. The result was most encouraging, as about \$3,700 was subscribed in a short time, and considerable enthusiasm was shown.

Speeches touching on the fair were made by several persons present, and Mr. Charles Wells was appointed a committee to go to Cairo and consult with the committee there relative to holding a street fair, and get the benefit of their experience.

It is hoped to hold the street fair here sometime after the 15th of October. The pledge last night ranged from \$200 to \$15. The committee appointed to solicit subscriptions is composed of: R. T. Lightfoot, W. F. Paxton, Charles Wells, Henry Peter, John Rock, George Deitz, G. R. Davis, Jack Walenstein, John Keller, Dr. King Brooks, George J. Jones and A. N. Clarke.

The committee has been hard at work today and it is understood has made pretty good progress. Mr. Wells leaves for Cairo in the morning to confer with the fair people. The people have begun to feel a lively interest in the fair, and expect to make it one of the best in the state.

### SET FOR TOMORROW.

The malicious assault case against Walter Bray, in jail charged with breaking E. Thalmueller's leg with a club, is set for tomorrow in Judge Sanders court. It is probable that the prosecuting witness will be unable to attend court. Bray was to have gone to Water Valley yesterday to assist in putting in a large pottery.

### FINED FOR FIGHTING.

Ernest Altmann and Doc Scholerer had kissed and made up when they appeared in the police court, notwithstanding there were still traces of darkness about the oris of the afore said Altmann. Doc is something of a pugilist, and made his appearance last winter before the Paducah Athletic club. Judge Sanders taxed the boys \$3 and costs each for their fun.

Frank Ives, the noted billiardist, is dead. He died in Mexico a few days since, where he had gone for his health.

### MESSAGES 12 MILES.

Satisfactory Experiments With Wireless Telegraphy.

Experiments with wireless telegraphy were made between Blue Hill observatory in Milton and Harvard memorial tower in Cambridge, Mass., a distance of twelve miles, on Saturday. They were partly successful, sufficiently so to encourage the scientific men who are working at the problem of sending messages through space by means of waves.

But there are difficulties at the receiving station at Harvard, largely the result of the many electric influences in the vicinity, which disturb and interrupt the current necessary for the transmission of messages. Efforts will be made to prevent these influences from making themselves felt, but if they do not meet with success, and probably they will not at first, then the receiving station will be placed at Blue Hill and the messages will be sent from Harvard.

The former station, 410 feet above the sea level, is two or three miles from any electrical works of any kind, and its proximity to the sending apparatus will disturb it very little, if any, the experiments may be more successful.

No results have been obtained that lead experimenters to think wireless telegraphy will be of immediate commercial value, but much has been learned in this new field and the results have encouraged them to persevere.

### WRIT OF DELIVERY.

Justice Emery this morning issued a writ of delivery in favor of Public Administrator F. O. Rudolph against Mr. Huff and Mrs. Charity, who occupied a shanty boat near Island Creek. The property discovered in the boat included 12 fishing nets, trunk, clothing, quilts and a skirt, which were all taken by the officer.

The goods belong to the estate of the late Mrs. Will Hamilton, who died, and it is supposed were hidden away to prevent the administrator from finding them.

### MRS. ELLIS EXPLAINS.

Mrs. John Ellis, who was yesterday made the defendant in a petition for divorce, states that most of the charges brought in the suit are false, and that all she ever did was to have been justified in doing, and would have been justified in doing more.

Concentrated fragrance. Seidenberg's 5c. cigar Seiden's 5c.

### FIRE AT DIXON.

A fire at Dixon Springs Tuesday night came near destroying the postoffice and store kept by Mr. Farmer. The flames were extinguished before any great damage was done, and were supposed to have been of incendiary origin.

## Getting on The Inside

The outward appearance of tallor-made clothing is usually good. That depends on the tailor—but it's the inside that should be taken into consideration. Pretty near time to think about that Fall Suit, isn't it? Not quite so busy now as we will be later on; have more time to be sure everything is perfect. Drop in and examine the fall suitings.

A dispatch from Pittsburgh says: The coal operators hereabouts are kept busy these days watching their coal fleets. The craft are beginning to leak pretty badly in some instances, caused mostly by swells from passing a causer forcing the boats and barges. The Monongahela river was struck by a sandstorm yesterday. It is used to fill the cracks in the coal-craft, and, according to the operators, it is the only way looking can be overcome. The consumers of coal at Cincinnati and Louisville will have to pay more for coal just as soon as the Monongahela River Coal and Coke Company becomes operative, according to a prominent coal operator, and the next shipment of coal to both places named will be sold at an advance.

Sharp's Bar is at the head of Grand Chain instead of Little Chain.

The Red River eight days out from Louisville arrived last night. She had a lighter in tow with about 150 tons of freight. Captain Farley says the river between here and Louisville is an angry condition.

The Joe Fowler departed on time for Cairo this morning with a very good trip of passengers, Captain Cole, who is pilot on her says the channel is cutting out some at Sharp's Bar. He rounded there and found a feet.

The Red River's machinery is a curiosity to many of those who saw her while here. Her cylinders are 7 inches by 14 inches, the Scotch boiler 10 feet long by 60 inches in diameter.

The new river's Lee would stop here for completion, but owing to the falling river her owners are afraid of the water on Grand Chain, so they will try and get through to Cairo where the finishing touches will be put on her. She is four days out from Louisville.

The Boh Dudley will arrive from Chickasaw tomorrow and withdraw from the Cumberland river trade, having been chartered by the Evansville Paducah & Cairo Packet Company. She will likely take the place of the J. H. Richardson, leaving here for Evansville next Monday morning. If this move is made the J. H. Richardson will take the place of the Joe Fowler, now filling the place of the Dick Fowler in the trade from here to Cairo.

The Joe Fowler then being relieved will be laid up on the Illinois shore just below the Dick Fowler.

The City of Paducah is overdue from St. Louis to Tennessee river. The low stage of water has thrown off time.

Boiler and hull inspectors Wyatt and Green, of Nashville, will arrive next Tuesday to inspect the Chattanooga, and investigate some preferred charges against several steamboat men here.

The steamer Tennessee arrived out of Tennessee river at 1 o'clock this morning with all the freight water in Tennessee river would permit her to carry. She leaves at 5 p. m. tomorrow on return trip.

The J. N. White will be ready to come off the ways tomorrow evening and next Monday will take the place of the George Gowing, which will stay a few days for repairs.
